COMETS LOST GAME

IN AS POOR A GAME AS WAS EVER STAGED AT BALL PARK.

USED THREE PITCHERS

And Then Handed the Game to Falls City—Shenandoah Lost and Auburn Won.

Ball of the yellow slip variety was handed to a large number of fans at Riffes yesterday afternoon. It was about as poor an exhibition as was ever staged by the Comets, and was handed to Falls City at an 11 to 5 clip.

Southward started the battle, pitching excellent ball, but in the third he fumbled twice and started filling the bases. Errors, many of which should not have been errors, and hits, some of which ought not to have gone through, began coming thick and fast, resulting in Falls City scoring four times in that inning, once in the fourth, four times in the sixth, and twice in the ninth. The Comets started climbing in the fifth and chalked up four scores to the leaders' five. Their method of getting three of them was doubtful, however, for with two down, Sackett and Dietz on third and second, Wintz's grounder down the first base line was called fair after being fielded in the coachers' box. This filled the bases and a two-base hit by Walsh brought the three across the pan. With three hits and several errors Falls City jumped into another big lead in the sixth by spiking the plate four times. Maryville then lost a good chance to even up, for with one down, two hits and an error filling the bases, Oswalt was sent to bat for Southward. His long fly to center was caught, McBride scoring on it. The next man was trimmed at first.

In the seventh Montgomery was put in the box, Black defended the plate, and Cowley was sent to center. A neat double from Sackett to Wintz finished what looked to be another disastrous inning for the Comets. With the bases again full in the eighth and only one down the Comets again failed to even up. Delair tried to stick for Montgomery but chopped out, and Sackett poped a fly to second.

Fromme was put on the mound in the ninth. Two singles, a double and two errors put two more across before Falls City was shut out for good. Cowley, Wintz and Walsh flied out in rapid succession.

Falls City did not have quite everything their own way, there being thirteen hits and four errors against them.

The "umps" was about as neutral as any one of the Central American states would be when a free-for-all revolution was on. It kept him busy hopping from side to side.

Dietz caught an excellent game, stopping several very wild heaves which would have meant a score each time had they passed him. He made two bad pegs to second, but they didn't amount to much.

The severe rain storm of Tuesday evening prevented the production of the Mothers' Circle entertainment at the high school auditorium.

The program will be presented this Wednesday evening at 8:15 o'clock, so that those wishing to attend the weekly prayer meetings may do so before the entertainment.

Remember, this entertainment is to raise money for the equipment of the emergency room at the high school building. The regular prayer meetings at the churches will begin this evening at 7:15 o'clock and dismiss in time for all who may desire to attend the entertainment.

GOOD RAIN TUESDAY

1.04 INCHES OF WATER FELL DURING THE EVENING AND NIGHT.

DAMAGE IN NODAWAY TWP.

Barn Near Burlington Junction Destroyed and Several Other Buildings Damaged.

In Maryville 1.04 inches of rain fell Tuesday evening and night during the wind and hail storm, which did considerable damage to corn, wheat and other crops over the county. Outside of this very little damage was done.

The rain was much needed and makes the prospects for a bumper corn crop much brighter. There hasn't been much rain in this section for some time until Tuesday night's rain.

The rain was accompanied by a great deal of wind. Near Burlington Junction John R. Graves' barn was totally destroyed by the wind. Several small corn cribs on Ernest Boyer's farm, near that town, were also badly damaged by the wind.

Hail of good size fell in several parts of the county and injured the corn.

LEFT FOR THEIR NEW HOME IN IDAHO

Mrs. Donna Graham and her daughter, Mrs. Karl Malotte, and two little children, Graham and Mary Donna, left Wednesday morning for their new home at St. Anthony, Idaho, where Dr. Malotte has located for the practice of medicine. They will stop a week at Denver, Col., for a visit with Mrs. Graham's sister, Mrs. Kate Dines, and daughter, Miss Ethel Dines.

Mrs. Graham will not dispose of her residence at 422 South Buchanan street, which is the old Graham homestead. The lot on which the house stands was the first one sold after the town was incorporated in 1845, and was purchased by her father-in-law, Amos Graham, for several years a leading citizen and official of this county. His wife, Mrs. Mary Graham, who died in this city some ten or twelve years ago, was the first white woman settler in this section, and it was for her that Maryville was named. Their only child, the late Charles C. Graham, was born in the house they built, which was very pretentious in those days, and when he married he brought his wife there and their family grew up in the home of his mother, the father having died in early life. So it is not surprising that Mrs. Graham and her children wish to keep the old home, which has always been kept in fine condition. Plans that had to do with Maryville and Nodaway county's early history were formulated in that house, and its first social and religious life had its beginning there, for Mrs. Graham was one of the most genuinely hospitable and devout Christian women our city has known.

Mrs. Graham and Mrs. Malotte have the kind wishes of all their friends for health, happiness and prosperity in their new home. They will be missed from many circles, but especially in the First Baptist church, where they have always been active workers.

A PIONEER'S STORY

WRITES OF THE OLD COURT HOUSE BUILDING.

CHURCH WAS HELD THERE

An Incident is Told That Andy Stinson Played a Part in While in Church.

The fourth installment of the early days of Maryville, as written by a citizen of this city, follows:

I will now go to the court house. It stood about where the present court house stands. I think it was about fifty feet square, two stories high, constructed of brick made here in Maryville. There were two doors below, one in the west and one in the east. The judge's stand was on the north side, about the center of the building, only the north half of the building being floored well. I might say not half of it, for there was an aisle extending from the center of the building, about six feet wide, covered with sawdust, from the center of the building east and west to the judge's stand, also extending around each side of the stand, so on entering, either the east or west door, you would walk on the sawdust until you reached the stand. Each side of the aisle was floored, with the exception of the aisle that extended around the walls, both east and west, and on the north, connecting with the stand on either side. William Herren of Savannah, Andrew county, was the circuit judge. As there were not many people in Nodaway county at that time it did not take much floor space to hold them. But before going into other details I will explain how the floors and seats were constructed. I would not have you think for a moment that the floor of this room was tongued and grooved, for it was not. Logs from the timber adjacent to the town were hauled in, one side scored and hewed, and laid on the ground the flat side up. The logs were laid lengthwise, north and south, and the floors crosswise of the sleepers. On top of the floors were logs, also laid north and south, and across these two-inch boards were laid, which formed the seats. So you will perceive at a glance that a person would have to be very tired if he could rest well on a seat like that.

There were very few preachers here in those early days. A. C. Votaw was at that time publishing a paper called the Maryville Gazette. The paper was issued weekly, and as I remember went to press on Thursday, so on Friday morning we were all anxious to get the paper, in order to get the news from the different settlements around throughout the county, of which there were very few at that time. On looking over the headlines I learned Brother Turner was going to preach in the court house, as that was the only place people could congregate to worship at that time, there being no churches.

So on Sunday morning the people began to arrive, not in buggies but on horseback, as wagons and buggies were rare in those days. It has been said that in those times even women went to church riding in an ox wagon. Bosh. Why, if at this late date a man was to accuse his wife of ever being guilty of riding to church in an ox wagon she would at once have him taken before Judge W. C. Ellison and demand an immediate divorce. Such a rash assertion as that would touch the hardest hearted judge, much less Judge Ellison. Well, it was a very warm morning, and A. L. Stinson, John Saunders, Alfred Michau, Lafe Dawson, James P. Coover, John Lieber, and another man or two whose names have escaped my memory, concluded they would walk down to the Brewery then kept by Peter and Thomas Crouse, brothers of the late George Crouse of this city. The brewery was located in the northeast corner of the Washington school yard. Perhaps the indentation in the ground where the cellar was can yet be seen. Well, they all went down, got a cold drink of water, perhaps with a little sprinkle of hops in it, then returned to church. As they entered the court house through the east door and filed into a seat, one after another, Alfred Michau sat just west of one of the logs I have spoken of on top of the floor that the boards for the seats lay on. Andy Stinson came next past Michau, then came Lafe Dawson, and as Lafe stepped over the log he stepped on Alfred Michau's foot, which was encased in a fine pair of cloth slippers. Everybody in the house at once knew there was something going on from the noise he made. He grabbed that foot up with both hands and embraced it. I thought for many years that Andy Stinson was the man that stepped on that foot, but he always strenuously denied it. The noise was of such a nature as to disturb the meeting. Lafe Dawson, who at once took in the situation, turned his face toward the preacher, looked him straight in the eye and said: "Proceed, brother, the gentleman is reviving." Then everybody wanted to laugh, but were soon suppressed. Andy Stinson soon broke out in a sweat, I observed, and he was uneasy and wanted to get out where he could get a little fresh air, but he saw there was no chance, as his feet were very near as large as Lafe Dawson's were. He freely admits that that was the longest hour he ever experienced in church. Well, I have heretofore stated that the seats on the east side were occupied by the men and the west side by the women. In those days the men and women invariably took separate sides at church. All of the south side of the court house floor was covered with sawdust.

Next week I will tell you who quite a number of those ladies on the west seats were.

Ellison and Court Stenographer Harry Irwin, on returning home from Rockport Tuesday evening on the Burlington train, ran into the storm between Westboro and Coin, and the train went through about a foot of water for quite a distance. PUPILS MAY NUMBER 300

Teachers and Students Enthused and Regular Work Will Start Thursday Morning.

Nearly 200 had paid tuition to Treasurer George B. Baker at the Real Estate bank up to Wednesday noon for enrollment in the State Normal school for the summer term. A large number were enrolling this afternoon and many more will be in the last of the week. The enrollment for the summer term will, it is thought, reach over the 300 mark, which will be the largest attendance at any term of the school yet held.

President Taylor, Dean Colbert and Registrar Rickenbrode have been very busy for the last two days classifying and arranging the work of the students.

All of the teachers met their classes today and the regular work will begin Thursday.

The present indications are that this will be the banner term for the Normal.

Before her work in the high school in Kansas City she conducted a fashionable boarding house. Mrs. Cunningham will also have a few rooms to rent at "Maplehurst." She will give all of her attention to this work, and in addition to the boarding of students, will furnish meals for the general public. A 6 o'clock dinner will be featured and made the most attractive meal of the day.

NORMAL BALL TEAM TO PLAY HOPKINS

The Normal base ball team will play a team from Hopkins at 4 o'clock Friday afternoon on the Normal diamond.

The Weather

Generally fair tonight and Thursday; not much change in temperature.

Diamonds are as staple as wheat

More so, in fact. If you took $25 or $50 or $100 out of the bank and bought a diamond with it—it isn't like spending the money on another article, because a diamond will never depreciate in value.

And all the time you wear it, it is earning you recognition, and promoting a feeling of stability among your friends, which is a pretty good thing to have done these commercial days.

Let us see if you and we can't make a deal in Diamonds.

Just now we can give either a lady or a gentleman some unusual chances to secure this desirable gem at advantageous prices at

SIXTEEN DEAD IN M'COOK WRECK

Two More Victims of Burlington Collision Die in Hospitals.

OPERATOR HELD RESPONSIBLE.

Official Investigation Shows Order Was Not Delivered to Train No. 12 Physicians Say More Victims May Succumb to Their Injuries.

Lincoln, May 31.—After an official investigation of the Burlington wreck near Indianola, Superintendent Allen made the following statement:

"The wreck was due to the failure of the operator at McCook to deliver an order to train No. 12."

McCook, Neb., May 31.—Two more victims of the Burlington wreck are dead, bringing the list of fatalities up to sixteen.

Miss Dean died in the hospital at Holdrege. Hiram Feekin died in the Cambridge hospital. The seriously injured were removed to these two places as soon as possible after the wreck. Mrs. Feekin is expected to die. H. H. Culbertson, whose wife is also among the list of dead, is another victim who cannot recover.

The body of Miss Dean was sent to the home of her parents, Mr. and Mrs. W. R. Dean, at Minden. Her death was principally due to internal burns from escaping steam. She was twenty-seven years old and was, until her resignation this spring, a teacher in the Minden schools. She was on her way to Los Angeles to visit a brother. L. B. Thomas of Lincoln is the only other injured person in Holdrege whose condition is critical. He was badly scalded by steam. Upon orders from railroad officels, the body of T. J. Gately is being forwarded to Gretna.

REFER LORIMER CASE

Committee on Privileges and Elections to Name Bipartisan Subcommittee.

Washington, May 31.—A virtual agreement to refer the Lorimer case to the senate committee on privileges and elections with the understanding that that committee shall instruct the proposed inquiry to a bipartisan and bi-Lorimer subcommittee of eight was effected in the senate.

The agreement was the result of a conference of Democratic senators, at which the previous decision to support the Martin resolution was rescinded and all Democratic senators released from caucus obligations.

The bipartisan idea was suggested by Senator Stone, and while no vote was taken, it was generally accepted as a satisfactory compromise.

In general terms it meets the demands of the Democrats. Their suggestion is for the selection of a subcommittee, to be composed of two Republican members who voted for Lorimer in the last senate and two who did not and of two Democrats who voted for him and two who did not, with the understanding that in case of a tie vote on the admission of testimony, it will be admitted.

It is understood that the subcommittee on investigation will consist of Senators Dillingham and Gamble (Rep.) and Fletcher and Johnstone (Dems.) pro-Lorimer, and Senators Clapp and Kenyon (Reps.) and Kern and Lea (Dems.) anti-Lorimer.

The final disposition of this matter by the senate was postponed until the next meeting on Thursday.

Successful Revival Meeting Closes.

Crawford, Neb., May 31.—Rev. Frank Mathias, who has been holding evangelistic services for the last three weeks, closed the meetings. More than 200 converts were made and taken into the several different churches.

German Torpedo Boats Collide.

Kiel, Germany, May 31.—Two German torpedo boats arrived here in a damaged condition, having been in a collision near Skagen, a seaport of Denmark, at the northern extremity of Jutland. One sailor was killed.

Home Builders Are Recognized

in every community as men of integrity and stability. It's proof that they believe in themselves and the future of their town. And every home that is erected in a community makes it just that much better place in which to live and invest your money. To most homebuilders it means something to live for—a real object in life—an acquisition that once attained is a joy forever. That NOW IS A GOOD TIME TO BUILD goes without question—money is plentiful for legitimate investment — Labor is within reach and our stock of lumber was never more complete. Remember—"He who hesitates," etc.—better start today — come in and talk it over with us—maybe our experience in the building line will make it easy for you.

HARROUN WINS SPEEDWAY RACE

Mulford Finishes Second and Bruce-Brown Comes in Third.

SPEED MADNESS TAKES TOLL.

One Man Is Killed and Four Injured During Long Grind—Mechanician Dickson Is Dead and Driver Arthur Greiner Is Badly Injured.

Motor Speedway, Indianapolis, May 31.—One life was sacrificed and several men were injured in the first 500-mile race on a speedway, won by Ray Harroun, driving a Marmon car, in 6:41:08. Closely pressing Harroun for victory were Ralph Mulford, with a Lozier, who finished second, and David Bruce-Brown, in a Fiat, a good third. Seventy-seven thousand persons shouted encouragement to the forty pilots who started the race at 10 o'clock a. m., and with unflagging enthusiasm cheered the leaders in the last laps and watched the field pound around the course in division of the lesser honors.

In the most serious accident of the day, S. P. Dickson of Chicago, mechanician for Arthur Greiner, driving an Amplex, lost his life in an upset on the back stretch. The race had been on but a few minutes and the Amplex was in its thirtieth mile when the rim of one of the front wheels flew off.

The car twisted on the track, hurling Greiner and Dickson from their seats. Dickson was thrown against a fence twenty feet away and was terribly mangled. He was killed instantly. Greiner was unconscious when picked up and it was feared he had a concussion of the brain, but when revived at the field hospital it was found his only injury was a fractured arm.

Succeeding accidents thrilled the immense crowd which, with nerves at high tension, watched the cars flash by the grandstand and momentarily expected a carnival of death. The cars at times swept around the course in groups at terrific speed.

List of Injured.

Men injured in the mishaps were: Dave Lewis, mechanician for Teddy Tetzlaff (Lozier), right leg broken; Harry Knight, driver of Westcott, breast bruised and possible internal injuries; John T. Glover, mechanician for Knight, body bruised; Bob Evans, mechanician for Jack Tower (Jackson), body bruised when he leaped from car in panic; John Wood, mechanician for Joe Jagersburger (Case), run over and badly bruised.

The crowd was too large to be controlled by the militia and the hundreds of special policemen posted about the grounds. The spectators swarmed across the infield when Dickson was killed and pressed close about his body and that of the unconscious Greiner. Soldiers fought to clear a space for the surgeons when the ambulance arrived.

The throng was wild with excitement after the first accident and rushed back and forward over the field when other accidents were reported. In the stands men and women were on their feet for hours, cheering their favorites and groaning with apprehension when cars crushed into cars or ran off the inner edge of the track.

Winner Hidden in Mass.

In the earlier part of the race the track was so filled with the whirling cars of the contestants that the race seemed but an exhibition of speeding automobiles. The winner was hidden in the mass.

At the 150 miles Bruce-Brown set a new record, regardless of classification. His time was 1:59:12, as against Dawson's old mark of 2:01:09. When Harroun took the lead in the 190th mile the race took form and then the crowds' interest was heightened and divided between the contest and catastrophes that were momentarily impending.

The cars began to cast their tires, burned out by the fierce grind over the speedway's brick pavement, and steering gears began to give way.

BRYAN RAPS WOOL SCHEDULE

Objects to Proposition, but Underwood Says It Will Go Through.

Washington, May 31.—William J. Bryan took exception to the program of his party in the house and criticised sharply the majority of the Democrats who have agreed to support the revised tariff schedule on wool and woolen goods. The criticism was contained in a statement made public through Representative Harrison of New York.

Chairman Underwood of the ways and means committee contented himself with the declaration that, despite Mr. Bryan's stand, the revised tariff would go through the Democratic caucus with a two-thirds majority.

SAMUEL BOGART PAYS FINE

Vice President of United Wireless Escapes Jail Sentence.

New York, May 31.—Samuel S. Bogart, vice president of the United Wireless Telegraph company, who pleaded guilty to fraudulent use of the mails in advance of his five associates, was fined $2,500 in the United States circuit court. He will pay and go free. Christopher Columbus Wilson, president of the company, and four others are in jail. The court denied their application for bail and sentenced them to varying prison sentences.

NASAL CATARRH.

Mrs. E. Karberg Says It is Easy to Get Rid Of.

"A bad case of catarrh was cured for me by the use of Hyomei. The trouble affected my head, nose and eyes, and was very annoying and disagreeable, and the cure, from the use of Hyomei, was very gratifying. Hyomei has from me a strong recommend and endorsement."—Mrs. E. Karberg, 213 Kingsley street, Ann Arbor, Mich., Nov. 16, 1908.

Hyomei (pronounced High-o-me) cures catarrh, because it gets where the germs are, and destroys them. It is made of Australian eucalyptus, mixed with other healing antiseptics. When breathed over the irritated membrane it gives relief in two minutes.

Used regularly for a few weeks it will build up and heal the germ infested membrane and drive out catarrh.

If you own a small Hyomei pocket inhaler, you can get a bottle of Hyomei at druggists' everywhere, or at the Orear-Henry Drug company for only 50 cents. If you do not own a Hyomei inhaler, ask for a complete outfit, the price is $1.00. It is guaranteed to cure catarrh, coughs, colds, croup or sore throat, or money back.

Rebuild the Capitol.

No taxpayer should overlook the following important considerations with respect to the special election to be held on August 1st:

First—Missouri is without a capitol in which to transact public business and preserve public records. This is the result of a disastrous fire, and presents a situation that must be met by the people.

Second—The legislature provided two plans, one of which must be adopted, or the state be left without a capitol for years to come. The first of these propositions is the bond issue of $3,500,000 to be voted upon on August 1. If this fails a bond issue of $5,000,000 is to be voted upon in November, 1912.

Third—By the adoption of the $3,500,000 proposition on August 1st, the people can save $1,500,000, and prevent two or three years of expensive delay in the completion of a new building.

Fourth—The amount each taxpayer will be called upon to pay is insignificant. For instance, a man owning a farm of the cash value of $3,000, assessed at $1,000, would be called upon to pay 20 cents a year for not over 13 years, with the prospect that he would have these taxes to pay for only eight years, owing to the rate of increase of the value of taxable property in the state from year to year, and the consequent increase in revenue.

RULE OF REASON TO BE THE GUIDE

Administration's Policy With Respect to Late Trust Decision.

NOTHING NEW IN ATTITUDE.

Decision as to Criminal Prosecutions of Members of Tobacco Trust Not Yet Reached by the Government. Many Bills Before Congress.

Washington, May 31.—That the government means to formulate its anti-trust policies in accordance with the "rule of reason," as laid down by the supreme court in the Standard Oil and tobacco trust decisions, notwithstanding the vigorous dissents of Associate Justice Harlan, and the many bills intrduced in the senate to amend the Sherman anti-trust law, was made evident.

Administration officials, after consideration and study of the tobacco decision and a thorough comparison with the Standard Oil decision, were agreed that "the rule of reason" is no new feature of the supreme court's interpretation of law, and one member of the cabinet, whose views have always been regarded as reflecting those of the administration, made a comprehensive statement to that effect.

The statement was attributed to "an official close to the administration."

The possibilities of criminal prosecutions of the individual members of the tobacco trust, which was ordered dissolved by the supreme court, are being carefully considered at the department of justice.

Neither Attorney General Wickersham nor any of his associates on the big case would make any statement as to the probable course of the government and no decision on that point is likely to be made for several days.

In respect to criminal prosecutions however, the tobacco case is said to differ somewhat from the Standard Oil case. In the latter, Attorney General Wickersham said no criminal prosecutions were under way, but declined to say positively that none were contemplated. Certain questions regarding the application of the statute of limitation enter into both cases and it is said that the legal problems are very delicate ones.

May Delay Amendments.

Sentiment in favor of amending the Sherman anti-trust law so as to make "every" restraint of trade a violation of the law, instead of only "unreasonable" restraints, was pronounced by several senators as perceptibly reduced by the decision of the supreme court in the tobacco case.

No intention, however, of abandoning the proposed attempt to amend the law has been announced by the senators who introduced amendments in the senate just after the Standard Oil decision. It is said nevertheless that a stubborn defense of the law and of the interpretation by the court would be made on the floor of the senate if the amendments are urged for passage.

The drastic remedy held over the heads of the defendants in the tobacco case in event they do not remedy the evils complained of by the court, is said to have strengthened the faith of those who accepted the majority opinion of the court in the Standard Oil case as the proper course. The decree in the tobacco case is taken by such persons as showing that the Sherman anti-trust law is an instrument by which every evil of this nature in interstate commerce may be crushed out "if the government only possesses the will and energy to do so."

The decision of the supreme court has been read with interest by President Taft and members of his cabinet but it is probably they will prefer to wait for several months to outline definite anti-trust policies. If additional legislation is then thought necessary, President Taft will recommend it in his message to congress.

CLOUDBURSTS IN GERMANY

Twelve Persons Are Drowned in Baden and Four Near Heidelberg.

Berlin, May 31.—Cloudbursts, accompanied by heavy hail, caused great damage in south Germany. In a village in the grand duchy of Baden twelve persons were drowned. Four persons were drowned near Heidelberg. Eight inches of rain fell at various places.

Hangs Daughter and Self.

Decatur, Ind., May 31.—Harvey Parker hanged his four-year-old daughter from a rafter in his barn just before he committed suicide in the same manner. Mrs. Parker discovered the two bodies. She cut down the child, who showed signs of life, but left her husband hanging until the coroner arrived. The child is expected to recover. Neighbors say jealousy was responsible for the husband's deed.

DON'T PULL OUT THE GRAY HAIRS

A Few Applications of a Simple Remedy Will Bring Back the Natural Color.

"Pull out one gray hair and a dozen will take its place" is an old saying, which is, to a great extent, true, if no steps are taken to stop the cause. When gray hairs appear it is a sign that Nature needs assistance. It is Nature's call for help. Gray hair, dull, lifeless hair, or hair that is falling out, is not necessarily a sign of advancing age, for there are thousands of elderly people with perfect heads of hair without a single streak of gray.

When gray hairs come, or when the hair seems to be lifeless or dead, some good, reliable hair-restoring treatment should be resorted to at once. Specialists say that one of the best preparations to use is the old-fashioned "sage tea" which our grandparents used. The best preparation of this kind is Wyeth's Sage and Sulphur Hair Remedy, a preparation of domestic sage and sulphur, scientifically compounded with later discovered hair tonics and stimulants, the whole mixture being carefully balanced and tested by experts.

Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It refreshes dry, parched hair, removes dandruff and gradually restores faded or gray hair to its natural color.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

IT'S ALWAYS BAD.

The Best of Backs Are Bad When They Ache, and Maryville People Know It.

A bad back is always bad.

Bad at night when bedtime comes,

Just as bad in the morning.

Ever try Doan's Kidney Pills for it?

Know they cure backache—cure every kidney ill?

If you don't, some Maryville people do.

Read a case of it:

J. A. Murphy, East Fourth street, Maryville, Mo., says: "I suffered considerably from kidney and bladder trouble. In the morning upon arising my back was weak and stiff and there was a dull ache in my loins which at times handicapped me in doin gmy work. Whenever I caught cold it settled in my kidneys, and at such times the kidney secretions became unnatural. I was run down in health when I read about Doan's Kidney Pills and procured a supply at Charles A. Love's drug store. Soon after beginning their use I found relief, and I am now free from kidney trouble. I occasionally take a few doses of Doan's Kidney Pills, finding that they serve to keep my kidneys in a normal condition."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
